EXPERIENCE:

- I spent 3 years studying Set & Costume Design at NIDA in Sydney, and on graduation, worked in the theatre industry for 8 years, building a solid career as a set designer, providing designs for many of Australia's leading companies.
- I spent my first year in the UK working as an Assistant Designer to theatre designers such as Tim Hatley, Soutra Gilmour & Ben Stones on productions in the West End, at the National Theatre and the Almeida Theatre.
- My work in theatre has given me extensive experience working and communicating with directors, lighting designers, actors and more- leading to a developed understanding of the unique needs and priorities of all departments and key players.
- My transition into the film industry included as work experience on *The Crown (Season 4)*, and employment as a scenic painter on *The Great (Season 1)*.
- My passion lies in collaboration; working with my colleagues to realise the vision of the Production Designer and the Set Decorator, and especially working with prop makers, carpenters and drapespersons to realise their contribution.
